

FREE Peg Bag Pattern

HOW TO USE THIS FREE PATTERN:

Print the pattern at 100% with no scaling sized to A4 paper. After printing, check the 1" x 1" / 2cm boxes measure correctly. The pattern has a dashed border & circles to assist you with taping the pages together. Line up the second page on top of the first, butting right up but not over the line. Tape in place & continue on with page 3 on top of page 2, and so on.

For full instructions & a photo tutorial on how to make the peg bag please refer to our blog.
